DIAMOND
Ice Systems Ltd.

INDIGO® NXT

The NXT level of Simplicity

Incorporating a 2.8-inch reflective touch display which provides access to features: ice machine **operating status**, step-by-step **cleaning instructions**, one touch access to the all **asset information** and a startup wizard to simplify the installation and ice machine **set up** process. Indigo NXT provides the owner with full status of ice machine, at all times.

The NXT level of Sanitation

Indigo NXT is the easiest machine to clean inside. With its hinged door that swings open, it does not need to be removed and placed on a dirty floor. A **front facing evaporator** allows access to the foodzone without removing the top or side covers.

Only Indigo NXT has an optional integrated advanced sanitation solution, **LuminIce® II** which keeps the food zone cleaner longer. Indigo NXT provides further peace of mind that the LuminIce II sanitation system is working by displaying a **sanitation icon** in the display frame. It displays blue when working and red when it's time to change the bulb. By having LuminIce II in the machine, you will reduce your cleaning frequency.

The NXT level of Energy Efficiency

Indigo NXT is the most efficient cube ice machines on the market today. Many of the new models incorporate R410A refrigerant, which is **environmentally friendly** and has 48% less global warming potential than previous models. All models are AHRI certified, as well as, exceed the stringent 2018 DOE (Department of Energy) minimums for energy usage. Many models are ENERGY STAR® 3.0 qualified, which makes them available for rebates from local energy companies. Indigo NXT is up to **43% more energy efficient** than previous models, significantly lowering the cost of ownership.

The NXT level of Reliability

Indigo NXT is the most reliable ice machines that Manitowoc has made. Over a half a million hours of testing went into developing the next generation ice machine. New reliability methodology and **HALT (Highly Accelerated Life Test)** were used to insure our machines will provide years of outstanding service.
